EXAMINER'S AMENDMENT

In response to applicant's amendment filed 9/18/07 claim 56 has been amended to include the subject matter of claim 57, claim 57 canceled and claim 58 amended to depend upon claim 56 instead of claim 57. Claims 45-56 and 58-62 are pending and allowed.

The following is an examiner's statement of reasons for allowance:

The cited prior art fail to teach or fairly suggest an integrated circuit and nano particle material adjacent thereto (independent claim 45), a photonic device and a nano-particle material enclosed between a lid and an enclosure with an opening (independent claim 51), or a microfabricated structure comprising a first nano-particle material layer that forms a hermetic seal between the substrate and the intermediate layer (independent claim 56). Lester (5,777,433) and Mueller et al (6,870,311) teach light emitting devices whose packages utilize nanoparticles, but not integrated circuits or the enclosure as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
